ACADEMIC EMPLOYMENT

| | |
|--|--|
| Assistant Professor | Rochester Institute of Technology, Department of Philosophy 2017- <i>present</i> |
| Visiting Fellow | Northeastern University, Department of Philosophy and Religion 2016 - 2017 |
| Postdoctoral Fellow (Gastdozentin) | Humboldt-Universität, Berlin School of Mind and Brain 2016 |
| James S. McDonnell Postdoctoral Fellow | Washington University in St. Louis, Philosophy-Neuroscience-Psychology 2014 - 2016 |
| Lecturer | Boston University, Department of Philosophy 2013 - 2014 |

EDUCATION

Boston University, Ph.D. (2014)

Doctoral Dissertation Title: "Experiment and Bias: The Case of Parsimony in Comparative Cognition"; Advisors: Alisa Bokulich, Colin Allen (Pittsburgh)

Indiana University, Visiting Scholar (2012)

Supervised by Colin Allen, Distinguished Professor, University of Pittsburgh (then at Indiana University)

University of California at Berkeley, B.A. (2003)

Major: Philosophy

AREAS OF SPECIALIZATION AND COMPETENCE

AOS: Bioethics, Philosophy of Science, Philosophy of Cognitive Science (especially animal cognition)

AOC: Philosophy of Mind, Moral and Political Philosophy, Philosophy of Biology

PUBLICATIONS

CONFERENCES ORGANIZED

October 2015: “Convergent Minds: Investigating the Evolution of Cognitive Complexity in Nature” held at Boston University (co-organized with Russell Powell, Boston University).

DISSERTATION ABSTRACT

Experiment and Bias: The Case of Parsimony in Comparative Cognition

Although parsimony is traditionally viewed as a virtue of scientific hypotheses, I argue that it is problematically embedded in the standard statistical method in comparative cognition and results in a bias toward under-attributing putatively complex cognitive abilities to nonhuman animals. In effect, parsimony sets as the default—or “null”—hypothesis to the non-presence of the more sophisticated cognitive abilities or mechanisms. I argue that the role of parsimony in the experimental setting of comparative cognition is deeply problematic, for several reasons. First, the notion of a cognitive hierarchy running from simplest to most complex is difficult to construct both because cognition does

not fall along a continuum of complexity and because the notion of “parsimony” is ambiguous. Second, contrary to some intuitions, the parsimony preference is inconsistent with evolutionary expectations. Third, it increases the risk of wrongly attributing the absence of a morally relevant cognitive feature to nonhuman animals. I offer strategies for amending the standard statistical methods in comparative cognition in order to guard against an unwarranted under-attribution bias, and I develop an evidence-based strategy for choosing a null hypothesis that is appropriate to the particular experimental context. Finally, I suggest a role for non-epistemic values, such as ethical values, in our choice and design of statistical models. Taken as a whole, this work demonstrates that various philosophical investigations of scientific practice – from inquiry into the nature of scientific evidence to analysis of the role of values in science – would be greatly enriched by increased attention to experimental methodology, including the choice and interpretation of statistical models.

ACADEMIC AND PROFESSIONAL AWARDS

Outstanding Teaching Fellow Award in the Boston University Department of Philosophy (2009)
Shimony Prize for best philosophy of science essay for: “Value-explicit Demarcation Criteria: Is There a Difference Between Bad Science and Pseudoscience?” (2007)
Travel grants: *Animal Cognition Conference*, awarded by the Department of Philosophy at Ruhr Universität in Bochum, Germany (2012) and the *Philosophy of Scientific Experimentation Conference*, by the Department of Physics at the University of Colorado, Boulder (2012)
Boston University Research Fellowship (Fall 2012)
Boston University Dissertation Fellowship (2009, 2010, 2011)
Boston University Teaching Fellowship (2006, 2007, 2008, Fall 2011, Spring 2013)

REFEREE WORK

Journals: Synthese, Philosophy of Science, Biology & Philosophy, Philosophical Psychology, Medicine Healthcare & Philosophy
Agencies: National Science Foundation

PROFESSIONAL AFFILIATIONS

Philosophy of Science Association, American Philosophical Association, Society for Philosophy and Psychology, Comparative Cognition Society

SERVICES AND ACTIVITIES

| | |
|------------------|--|
| 2017 | Co-organizer of the Rochester Institute of Technology Undergraduate Philosophy Conference |
| 2015 | Co-organizer of the joint Washington University-St. Louis-Boston University International Conference, “ <i>Convergent Minds: Investigating the Evolution of Cognitive Complexity in Nature</i> ,” hosted by Boston University’s Center for Philosophy and History of Science |
| 2014-2016 | Co-organizer of the PNP/Medical School Colloquium Series at Washington University in St. Louis |
| 2012-2013 | Founder of weekly Boston University Dissertation Writing Group |
| 2011 | Moderator of the Boston University Center for the Philosophy and History of Science Colloquium, titled “Animal Minds” |

2008-2009 President of the Graduate Student Association (intra-departmental)
2009-2010, Summer 2010 Organizer and moderator of the bi-monthly Boston University Graduate Student Presentation Series (BU GSPS)
2006-2007, 2010-2011 Representative for the Philosophy Department at the Boston University Graduate Student Organization (inter-departmental)

TEACHING EXPERIENCE

Fall 2018 Responsible Knowing - *Rochester Institute of Technology*
Introduction to Moral Issues (x2) - *Rochester Institute of Technology*

Summer 2018 Introduction to Moral Issues (online course) - *Rochester Institute of Technology*

Spring 2018 Introduction to Moral Issues - *Rochester Institute of Technology*
Fall 2017 Bioethics and Society - *Rochester Institute of Technology*
Animals, Minds, and Morals - *Rochester Institute of Technology*
Introduction to Moral Issues (x2) - *Rochester Institute of Technology*

Spring 2017 Moral and Social Problems in Healthcare (x2) - *Northeastern University*
Fall 2016 Philosophy of Science (Capstone course) - *Northeastern University*
Moral and Social Problems in Healthcare (x2) - *Northeastern University*

Summer 2016 Philosophy of Experiment (graduate seminar) - *Berlin School of Mind and Brain, Humboldt University*

Fall 2014, Spring 2015, Fall 2015 (x2) Introduction to Cognitive Science - *Washington University in St. Louis, Philosophy-Neuroscience-Psychology Program*

Spring 2014 Ethics of Healthcare (upper-division undergraduate/graduate) - *Boston University*
Introduction to Ethics (supervised one graduate student teaching fellow) - *Boston University*

Fall 2013 Medical Ethics (x2; supervised four graduate student teaching fellows)- *Boston University*
Introduction to Ethics - *Boston University*

Summer 2010 Philosophy of Science - *Boston University*
